I have ability to lead and to work in teams with multiple deliverables and shifting priorities with short deadlines. I also have the experience of working in long term projects using agile environment. I have strong understanding of the importance and role of UX to UI design and experience with usability tests and A/B tests. I have ability to present my designs and communicate my vision with team members at all levels of an organization or clients. I have experience in HR process to recruit, create and lead design teams.
